1. mediaware Production I.1

The **mediaware Production** product family contains tailor made printing media for professional printing jobs offering maximum user flexibility regarding products, sizes and applications. The results that can be achieved will meet the highest quality standards. If you search products for your Indoor or Outdoor applications - here you will find the best.

1.1. Matt printing media I.1
1.2. Glossy and semi matt printing media I.13
1.3. Transparent printing media I.19
1.4. Self-adhesive printing media I.22
1.5. Transfer papers I.25
1.6. Textile and textile-like printing media I.26

2. mediaware Digital Photo II.1

mediaware Digital Photo papers were specially developed for printing digital photos using ink-jet photo printers. The special coatings of the **mediaware Digital Photo papers** offer extremely high resolution, very good color fidelity, color brilliance and very fast drying. Using **mediaware Digital Photo papers** assures achieving maximum quality output from your printer.

Optimize your printing results by using the recommended printer settings for the **mediaware Digital Photo** media. You can find them in each box of our **mediaware Digital Photo** paper.

Get professional photo prints by using the new **mediaware Digital Photo** RGB ICC profiles for Adobe™ Photoshop®, which are available for the most common photo printers for Windows® and Macintosh® platforms.

With **TECCO:PRINT** you use automaticly our **mediaware Digital Photo** RGB ICC Profile with all graphics Macintosh® applications, without manuel Color- and Printersettings.
